Experience

Full Stack Web Developer Intern | Apex Planet:

Apr 2026 - Present

- Developing full stack web applications using HTML, CSS, JavaScript, PHP, and MySQL
- Implementing backend features including authentication, database operations, and CRUD functionality

Education

CMR Technical Campus | Hyderabad, Telangana

July 2024 - Present

Bachelor of Technology in Computer Science and Engineering with specialization in AIML

(Expected completion: 2027)

Projects

DIGITAL LEARNING PLATFORM:

| [Github Link](#) |

- Developed an online learning system that delivers structured courses, video lectures, and quizzes, enabling users to learn anytime and anywhere with a user-friendly interface.
- Implemented features such as user authentication, progress tracking, and performance analytics to monitor learning outcomes and enhance user engagement.

Technologies Used: *React, MongoDB, Node.js*

PREDICTING CYBER ATTACK TYPE USING AI :

- Developed an AI-based system to enhance cybersecurity in e-Governance by detecting cyber threats such as malware, phishing, and unauthorized access.
- Implemented machine learning and predictive analytics techniques to analyze network data and forecast potential cyber-attacks for proactive risk management

Technologies Used : *Python, Pandas, Flask, Php*

Languages, Technologies, Skills

Languages: Python, JavaScript, Java, C++

Frontend: HTML, CSS, React, Tailwind CSS, Material UI

Backend: Node.js, Express.js, PHP

Database: MongoDB, SQL, Firebase

Tools: Git, Github, Android Studio, VS Code

Achievements

- Attended Workshops on Blockchain and **Generative AI**.
- Strong understanding of Operating Systems, OOPs, and Computer Networks
- Completed C Programming Certification (IIT Bombay Spoken Tutorial).
- Participated in Multiple College Level **Hackathons**.
